Time limitations and quantity restrictions:

2. Prescriptions for Schedule II (C-II) medications cannot be filled after 30 days from the date written at the Naval Hospital. Federal DEA law prohibits refills. Quantity is limited to a 30-day supply except for ADHD therapy. Prescriptions for ADHD therapy may be written for up to a 90-day supply.
3. Prescriptions written for Schedule III-V (CIII-V) medications expire 6 months from the date written, after which they cannot be filled or refilled.
4. Prescriptions written for non-controlled medications expire one year from the date written, after which they cannot be filled or refilled. Quantity is limited to a 90-day supply and 3 refills for most maintenance medications.
5. Non-formulary products are restricted to staff providers with appropriate justification. Navy Regulations prohibit military providers from rewriting civilian prescriptions. Non-formulary prescriptions are referred to mail order or retail sources (see notes below).
6. Telephone prescriptions will NOT be accepted. Photocopy of prescription and fax will also NOT be accepted. By Navy Regulation, "Take as directed," in most circumstances, is not considered adequate instruction and should be avoided.
7. Refills must be called in: Toll free (866) 207-1028. Walk in refills will not be filled. Refills not picked up within 7 working days will be returned to stock.

Important information regarding product availability and dispensing limitations:

1. This formulary lists medications that are currently available at the Naval Hospital. Changes to this list or guidelines may be made
